

# British Heart Journal

*A monthly journal of cardiology  
 published in association with  
 the British Cardiac Society*

- |                                                                                                                                                                                                                              |     |                                                                                                                                                                                     |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Dipyridamole combined with exercise for thallium-201 myocardial imaging <i>P R Walker, M A James, R P H Wilde, C H Wood, J R Rees</i>                                                                                        | 321 | Doppler ultrasound in the estimation of the severity of pulmonary infundibular stenosis in infants and children <i>A B Houston, I A Simpson, C D Sheldon, W B Doig, E N Coleman</i> | 381 |
| Deaths from ischaemic heart disease in Belfast <i>W J McIlwaine, M D I Donnelly, M Mallaghan, A T Chivers, A E Evans, J H Elwood, A A J Adgey, N P S Campbell, J S Geddes</i>                                                | 330 | Effect of long term oxygen treatment at home in children with pulmonary vascular disease <i>J J Bowyer, C M Busst, D M Denison, E A Shinebourne</i>                                 | 385 |
| Continuous ambulatory pulmonary artery pressure monitoring: a new method using a transducer tipped catheter and a simple recording system <i>R D Levy, D Cunningham, L M Shapiro, C Wright, L Mockus, K M Fox</i>            | 336 | Afterload reduction: a comparison of captopril and nifedipine in dilated cardiomyopathy <i>P G Agostoni, N De Cesare, E Doria, A Polese, G Tamborini, M D Guazzi</i>                | 391 |
| Ultrafiltration in the management of refractory congestive heart failure <i>I A Simpson, A P Rae, K Simpson, J Gribben, J M Boulton Jones, M E M Allison, I Hutton</i>                                                       | 344 | Echocardiographic evaluation of verapamil in Friedreich's ataxia <i>F Casazza, F Ferrari, G Finocchiaro, J Hartwig, U Piccone, R Tramarin, M Morpurgo</i>                           | 400 |
| Heart rate variability in healthy subjects: effect of age and the derivation of normal ranges for tests of autonomic function <i>I A D O'Brien, P O'Hare, R J M Corral</i>                                                   | 348 | Case reports<br>Cross sectional echocardiographic appearance in presumed congenital absence of the left pericardium <i>I Candan, Ç Erol, A Sonel</i>                                | 405 |
| Mitral valve closure and left ventricular filling time in patients with VDD pacemakers: assessment of the onset of left ventricular systole and the end of diastole <i>H von Bibra, A Wirtzfeld, R Hall, K Ulm, H Blömer</i> | 355 | Myocardial infarction after blunt chest trauma incurred during rugby football that later required cardiac transplantation <i>A H Watt, M R Stephens</i>                             | 408 |
| Auscultatory characteristics of normally functioning Lillehei-Kaster, Björk-Shiley, and St Jude heart valve prostheses <i>M Kupari, A Harjula, S Mattila</i>                                                                 | 364 | Left coronary artery dissection: an unusual presentation <i>G F Adkins, R H Steele</i>                                                                                              | 411 |
| Late results of right ventricular outflow tract reconstruction with Björk-Shiley valved conduits <i>W Meldrum-Hanna, T Cartmill, D Johnson, J Celermajer, R Hawker</i>                                                       | 371 | Ductus arteriosus associated with an anomalous left coronary artery arising from the pulmonary artery: catastrophe after duct ligation <i>E Ortiz, M de Leval, J Somerville</i>     | 415 |
| Accessory mitral valve tissue causing left ventricular outflow tract obstruction <i>W G Meldrum-Hanna, T B Cartmill, R E Hawker, J M Celermajer, C M Wright</i>                                                              | 376 | Correspondence                                                                                                                                                                      | 418 |
|                                                                                                                                                                                                                              |     | Notices                                                                                                                                                                             | 420 |
